

DOUBLE PALLET HANDLER BEVERAGE-PREMIUMCAM

WITH CAMERA/SMARTFORK® TECHNOLOGY

Double pallet handler beverage-PremiumCam

The **double pallet handler beverage-PremiumCam** is based on a standard DPK unit. The patented extra equipment of three cameras integrated into the forks (SideCam) enables a safe and fast entering of the load. The cameras are positioned in a way that they are protected and at the same

time allow for handling pallets at maximum closed fork position. Built-in sensors enable automatic switching to a camera integrated in the fork tip (FrontCam), which can display a safe loading process at the front.

incl. monitor, mast cable and deflection pulley

well-protected cable routing

optimal visibility due to compact design

- ✓ Protected cable routing
- ✓ FrontCam
- ✓ SideCam
- ✓ Automatic PremiumCam
- ✓ Laser

bolted components enable fast and easy replacement of all parts
