

DZVW-GF 360°

Fishing industry version

DZVW-GF

The revolving fork positioner **DZVW-GF** rotates through 360° and has bolt-on forks. The unit's strong construction with round bar technology guarantees a long service life. The rotator unit has a strong direct drive transmission and is proven in heavy-duty applications. Specification fishery industry version: sea water resistant paint, selected hot dip galvanized frame parts, external lubricant access for main slew bearing, sealed bolts where possible, stainless guides and partial stainless cylinders.
