

Hydraulic telescopic fork arms

The hydraulic telescopic fork arms **TGZ** are the ideal solution for many transport and loading applications. Vehicles can be loaded and unloaded from one side. The telescopic forks feature 100% synchronised reach movement for ease of use. This feature further supports excellent visibility and simple installation. Fork pockets feature +2mm wear resistant mangan steel wear zone as standard.

- 1 hydraulic function required
- includes hoses and couplings
- standard with easily replaceable wear zones and fork tip made of solid steel to reduce service costs
- thicker mangan steel wear zone (+6 mm) ISO IV upon request

- pallet stop ISO IV (see page 198) upon request:
 - A) 75 mm on the fork pocket sides
 - B) 400 mm
 - C) 850 mm
- type B and C reduce the useable length by 50 mm
- different pallet stop positions upon request
- for ISO type B mounting (ISO IV) upon request
- standard colour: dark grey

- low built height TGZ available upon request

**consider fork section when choosing pallets or loading scheme*

Please note:

- standard load backrest does not fit with TGZ installed.

2 cylinder model TGZ 25 - 80

- 2 cylinders per fork arm
- 100% synchronised fork travel
- powerfull extension and retraction
- operates fully loaded
