

# FORK POSITIONER WITH TELESOPIC FORKS

# Fork positioner with telescopic forks

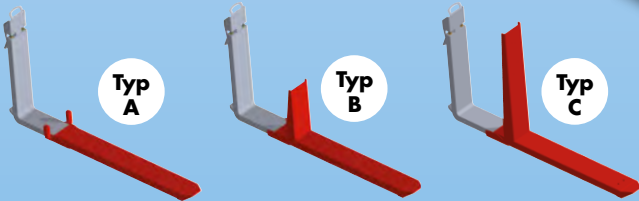

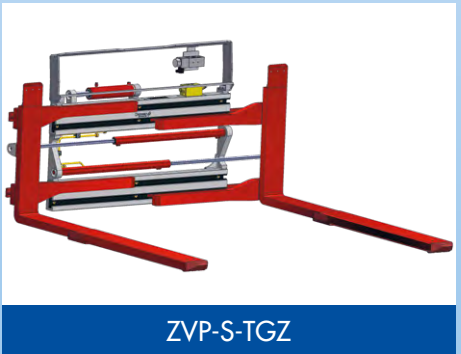

The **RZV-S-TGZ fork positioner** features stable bar guides on which the adapters can be positioned. Constant sideshift enables using the complete sideshift at every fork position. The unit is equipped with telescopic forks which allow for ideal single side loading. The forks can be retracted and extended fully

loaded and feature 100% synchronized fork travel. This fork positioner combines compact design with excellent visibility and large opening ranges as well as high residual capacities. The telescopic forks are equipped with 2 mm wear zone as standard.
