

Foundry version

rotators		
type	remarks*	level
DG/ DG-S	motor protection plate against mechanical damage	A
DG	motor protection plate against mechanical damage, internal protection tube, heat protection plate, heat-resistant hoses, open rotators eye for good visibility	B
DG-S		
DG	motor protection plate against mechanical damage, rotator closed in the middle, heat protection plate, heat-resistant hoses	C
DG-S		

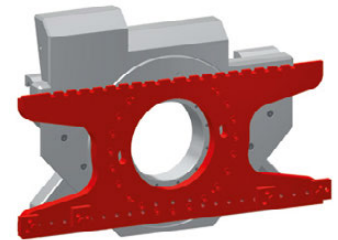

image shows type DG level B

fork clamps		
type	remarks*	level
PGK/ PGK-S	cylinder protection against mechanical damage	A
PGK/ PGK-S	cylinder protection against mechanical damage, brass bearings, heat-resistant hoses	B
PGK/ PGK-S	cylinder protection against mechanical damage, brass bearings, heat-resistant hoses, closed protection strip	C

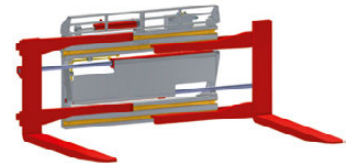

image shows type PGK-S level B

revolving fork clamps		
type	remarks	level
DUZ/ DUZ-S	cylinder protection against mechanical damage, motor guard plate and valve protection	A
DUZ/ DUZ-S	cylinder protection against mechanical damage, brass bearings, heat-resistant hoses, motor protection plate and valve protection	B
DUZ/ DUZ-S	cylinder protection against mechanical damage, brass bearings, heat-resistant hoses, heat shield and valve protection	C

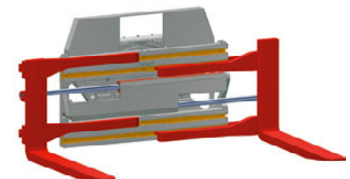

image shows type DUZ level B
