

Sideshifting fork positioner

LZV-S

constant sideshift, no forks

The LZV-S is a fork positioner designed for light-duty applications. It is equipped with constant sideshift as standard for easy load alignment. Fork positioning is powered by two hydraulic cylinders, and the unit accepts ISO 2328 hook-on forks.

The LZV-S is intended for low-intensity indoor use under clean and stable operating conditions. Proper operation and regular maintenance are required to achieve the expected service life. The unit is not designed for clamping tasks, nor for medium or heavy-duty applications, outdoor use, or harsh environments.

- 2 hydraulic functions required
- includes hoses and couplings
- constant sideshift as standard
- available without sideshift
- for hook-on forks ISO 2328
- forks not included
- clamping of goods is not allowed
- max. fork length 1600 mm, for longer forks we recommend RZV-S
