

Fork positioner

ZVW-IG
ISO III

integrated version, integral sideshift, bolt-on forks

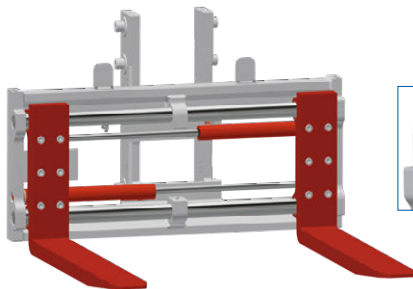

The integrated fork positioner ZVW-IG offers outstanding durability and excellent visibility. The double chrome axis guideways are particularly clean and enables precise fork positioning due to high-quality hydraulics. The bolt-on forks are firmly attached to the carriers and provide smooth running and precision even in quick operation. The integral sideshift operates depending on fork position. This means that only the fork carriers move inside the static frame.

- 2 hydraulic functions required
- ready to connect, access metric
- features bolt-on forks as standard
- for hook-on forks ISO 2328
- including brackets, chain anchor and stub shafts, without rollers

- detailed information including carriage drawings are required with the order as well as forklift model and mast model details
- weight, COG and LLC do not include brackets
- LLC does not include forks
- load backrest/protection strip type LS-RP see page 248
- clamping of goods is not allowed

option: protection strip

*Forks longer 1600 mm
